SATURDAY, OCTOBER 3. NOTES OF THE WEEK.

A BAT.-A recent visitor at Lahaina informs us that he saw a genuine bat there flying about in the daytime. Where did he come from - the Gazette sanctum?

THE EQUINOCTIAL last week amounted to a heavy rain-fall at various points all over the islands. At Koolau, on this island, a freshet carried away the Kaneohe bridge.

Masonic.-The regular monthly meeting of Hawaiian Lodge, No. 21, F. & A. M., will be held at their rooms in Makee's block, on Monday evening next, October 5th, at 74 o'clock. FOREMAN, No. 2 .- At a recent special meeting of

EUCALYPTUS SEED .- Capt. Makee sends us from Ulupalakua a branch of Eucalyptus in blossom, with a number also of seed vessels of the same. He informs us that several of his trees have borne seed for three years past, and that in future he intends to plant more extensively than ever. This popular Australian is likely to spread all over our islands, as it is found to succeed best on high lands and mount-

FIRE AT KOHALA .- We regret to have to record the destruction by fire on the night of Sept. 21st, of the recently erected Sugar Mill on the Hinds Plantation, at North Kohala, Hawaii. Nothing of the buildings was saved, and the loss is estimated at about \$10,000. The sympathies of the entire community are with Mr. Hinds who has thus lost his all, but which it is which few, however innocent, could pass unscathed. hoped may yet be found to be partially covered by insurance. Investigation may prove the fire to have his own letters and conduct so inexplicable, that been the result of incendiarism, although so far nothing has transpired to lead to that conclusion.

HAWAHAN BIRDS .- A letter from Hilo says : There is in this town a beautiful collection of Hawaiian birds, finely preserved. It would be a valuable acquisition to the Government Museum, if Mr. Mills, the gentlemen to whom it belongs, and who has been some years and at considerable expense in the work of collection, would part with it. Among the specimens is one called 'the wingless bird,' now nearly if not quite extinct on these islands. They are, however, numerous on Wake's and Laysin Islands, where I have seen them, and supposed they were a new species. The body is about the size of a pigeon's, they have no feathers on the flipper-like wings, and they run with such speed that one would

take them for rats at first sight." the Boston Daily Globe of August 17, devotes a column to a flattering review of the "Report of the Secretary of the Hawaiian Immigration Society." The editor commences by saying that it seems almost impossible that within a century's time such a leap could have been made as is represented by the two facts of the slaying of Capt. Cook ninety-five years ago and the issuance of the pamphlet before him. "Add to this, that the islands possess an excellent system of common schools, support Normal Schools, had abused him while living, it was plain enough have half a dozen colleges and female seminaries, a score or more of churches, a Supreme Court, excellent hotels, and are governed in very much the same

laws enacted by a regular Senate and House of Representatives, and the impossibility seems still Kites!!! more certain." SCANDAL AND SCANDAL MONGERS, is the heading of a very sensible article in the Boston Daily Globe of a late date, commenting on Mr. Beecher's statement. We can find room to-day for only one

sentence, which might well have been penned in the latitude of Honolulu: "We have seen newspapers exerting themselves to the utmost, not only to get at facts from authentic sources bearing on a case which naturally enough excited great interest, but to put in form floating rumors and give them a semblance of credibility, to obtain the surmises and opinions of all manner of people who had no right to pass

Mr. Euron.-Under the bending "Encourage Hawaiian Industry," the editor of the Gaustie of date September 23d, proposed the giving of premiums to those who will raise certain articles, such as coffee, fibre plants, and the manufacturers PHASES OF THE MOON FOR THE MONTH OF OCTOBES, of mat bags, &c. That was all very well; but 3 7 AM why omit an industry that is already introduced. 30.3 am and is quite certainly a Hawaiian Industry? I \$ 49.5 PM refer to the keg factory of Mr. Hopper. Before his factory began to make shooks, the price of the imported article was 524 cents, and it is now reduced to 45 cents. The factory is provided with all the requisite machinery and can turn out all the kegs required by our planters, of just as good for both slow and fast steamers between Liverpool quality and as chesp as they can be imported. Is and Boston. Passengers intending to land at New not that a Hawaiian Industry that should be en-

way from Boston. MR. EDITOR: The inconsistency of your contemporary of the Gazette is something wonderful. In the first part of one of his articles this week, he accuses you of slandering the foreign community, because you deprecated too close a scrutiny into private records; and then in the latter half of the article, he repeatedly says that rum, and rum alone influenced the votes of the Representatives of the people during the late Session of the Legislature. Now I call that a base slander on the Hawaiian people. now publishes to the civilized world that after fifty years of Gospel teaching and the influences of civiligation, the best men to be found among the Hawaiians those elected to the Legislature—have all sold their Notes for rum! It will be but a short while before this shameful untruth will be copied into the news-"Mechanic" Engine Company No. 2, Mr. James W. papers of Europe and America. It is a great pity McGuire was elected as Foreman, in the place of Mr.

outrageous libeller of a whole nation. Kaual, September 26th, 1874. MR. EDITOR .- In the ADVERTISER you have at intervals endeavored to bring before the attention of the people and the government the necessity of party of ladies and gentlemen enjoyed the festive guarding the woods and forests, and arresting the and Nontilus, at Guetaria. The dispatch declares that work of destruction that has been carried on for the vessels were endeavoring to effect a landing of years. Also there has been from time to time articles written urging the planting of trees and clearly showing the importance of such a course to

the present and future welfare of the country. Here, on Kauai, we believed that the settled wise policy of the former incumbents of the Interior Office not to lease lands for wood-cutting, was to be adhered to. We would ask, what use is there in making an effort to plant trees or forests; or why should the interests of the people of Kanai suffer for one or two schooner interests in Hono-Inlu? Since the present head of the Interior Department has been in office the cutting of timber for firewood on the government lands on Kanal

are leaving for Honolulu. It is generally to be supposed that a Crown Minister is in the possession of the confidence of the people; but with us here who have risked our stake in the country, we ask, have we a woodcutting ring and monoply in Honolulu-and have government officers any interest in the same?

The experiment of running a line of British tenmers from Hongkong, via Yokohama, to this port has proved unsuccessful, and the China Transpacific Company has been bought out by the Pacific Mail Steamship Company. The latter company acquires the Vancouver and Vasco da Gama. Virtually the steamers are chartered, since no foreign-built vessel can be registered in an American's name. The next trip of the Vancouver will be under the superintendence of the Pacific Mail has gone on at an alarming rate, and daily cargoes line were Russel & Co., of China and New York.

S. F. Bulletin, Sept. 12. Another step in the Geneva award case has been taken in the official announcement by the Secretary of State to the Attorney General of the appointment of Messrs, Wells, of Michigan; Porter, of Iowa, and Rayner, of North Carolina, as the commission under the act passed near the close of the last session to adjust the actual and undisputed losses by the Alabama and other rebel cruisers.

A erop of one hundred bushels to the acre of any grain or root, would be considered something enormous. Yet this kind of a crop is reported from Minnesota and Iowa. In the sections where the greatest devastation has been wrought, the reports estimate the grasshoppers at "one hundred bushels to the acre." This having been accurately ascertained on at least one farm. There can be no better idea given of the vast numbers of these insects, who defy enumeration on any other system London has experienced a great and sudden rain fall, less disastrous, but not unlike in character

Among these in the prejudice which associates the weight of an argument or the soundness of an opinion with the moral character very generally, would have mourned if Beecher had of the writer by whom it is put forth. Recent dispatches state that a German house at Leipsic, which had commenced publishing a translation of

the first volume of Beecher's "Life of Christ," has abandoned the enterprise in consequence of the That Philadelphia is "the Mother City of Free masonary in America " is thoroughly well proved by an elaborate article in this week's Keystone, written by Mr. Clifford P. McCalla. He gives doc umentary evidence of the existence of the order there in 1730, three years before its advent in Boston, which has heretofore been claimed as "the Mother City." The article is interesting to all

Freemasons. Mr. Arthur Winship, in a lecture against the use of tobacco, asks the question, "would you smoke on your dying bed?" Certainly not; but neither any one would sign checks, read newspapers, make bargains, indite poetry, nor deliver addresses against puffing the weed in the last hour of life. Mr. Winship's startling query as to the indulgence in Partagas by moribund persons will not make one smoker the less in the world, and must, if persisted in, and coupled with other conundrums of the same dire import, render the labors of the enemy of tobacco a mere trifle ridiculous

In the way of business things are as dull sa ever, nothing is being done, and the scarcity of money is so great that people in general are only living, as the saying is, " from hand to mouth." The worst of it is there is no appearance of any change for the better. Everybody is waiting for the news of "annexation," and should there be any disappointment in this respect it is impossible to say what will be the result, as everything will be brought to a dead-lock. The country may in time be able to recover itself without annexation; but each of which brings in a rental of 10s. a week (a considerable quantity of ground being attached to eighteen months longer, were the other day sold by
